All soaps will cleanse, but they will not destroy disease germs. Germicidal Soap not only removes grease and dirt from the hands, but it destroys disease germs and perspiration odors.

Germicidal Soap is three things in one: a cleanser, a germicide, and a deodorant.

Germicidal Soap is a good general soap for toilet and bath purposes. It frees the skin from perspiration odors, from the germs of infection, as well as the tiny parasites that cause skin eruptions.

Miss Irene Haass is one of the latest victims of the prevailing malady that is attacking our young people—measles. She is at the home of her sister, Mrs. R. A. Carter.

Postmaster Alfred Finger and family moved to the J. B. Hurt residence in the Fly Addition Wednesday. Ex-postmaster M. A. Chaney helped out in the postoffice while Mr. Finger was making the change in his habitation.  
Chas. Krenmueller and daughter, Miss Alvina, and sons, Joe and Tom of Dunlay, were here Wednesday, and Mr. Krenmueller visited the Anvil Herald office. He says conditions are promising in his section; corn planting just now occupying the attention of the farmers.  
Hondo real estate was rising Thursday, and all those whose duties carried them on the outside got an eye full with every fresh blast of Old Boreas. If these high winds prevail much longer some of those who were recently complaining of rain will be wishing for another shower.  
The Anvil Herald print shop this week printed some stock sale certificates for the Medina County Fair Association, and they are now in the hands of those who have charge of the sale of stock. It is proposed to sell 300 shares of \$50.00 each for the purpose of making the Fair a permanent institution in Hondo.

A. L. Haegelin, the local tick inspector, was a business caller at this office Wednesday. Mr. Haegelin announces elsewhere in this issue the initial dipping dates in his precinct and he hopes to have the hearty co-operation of everyone in making this season's dipping effective and final. Only 100 percent efficiency will do this.

By the ceremony performed by his Honor, Judge A. M. Lamm at the Court house Wednesday morning, Sr. Vicente Rega binds himself to provide the frioles and Srta. Jaunita De Leon will grind the "mice" on the metate for the tortees while life doth last—provided the corn crop does not fail. After a fatherly blessing the Judge sent the happy pair to their Jacal rejoicing.

In the case of W. S. Lilly vs. Esker M. Lewis, suit for debt, which was tried and a judgment rendered for defendant Lewis at the last term of the district court here, and which was carried to the appellate court on appeal, a judgment was rendered this week affirming the judgment of the lower court. Homestead rights was the main question involved in the suit and the higher court sustained the homestead plea set up by the defense. DeMontel & Fly of Hondo, represented the defendant Esker M. Lewis.

C. C. Rogers received the news last week-end of the death of his brother, J. A. Rogers, at Waco. Deceased was quite well known here; he serving as deputy United States Marshall under Marshall Rogers during the Wilson administration. He also at one time made his home at Sabinal. He had reached the age of 65 years, and besides his wife, is survived by two children, a son and daughter; two brothers, C. C. and E. E. Rogers; besides other relatives in this section, and a sister in the Rock Springs Country. C. C. Rogers received the information of his brother's death too late to enable him to attend the funeral which occurred at Waco Sunday afternoon. The friends of the deceased living in this section will be grieved to learn of his passing and his brothers here will receive the sympathy of our people in their bereavement.

Carload shipments for the week totaled seventeen, fourteen out and three in, as follows: Outbound, 6 6 cars of corn, 7 of hay and 1 of maize; Inbound, 1 car of Fords and Inbound, 1 car of Fords and 2 of coal.

Newel Woods is taking the scholastic census for the Hondo Independent School District. As the district's share in the state's apportionment of the school fund will be governed by the number of scholastics enrolled, it behooves all to see that the enrollment is full and complete.

L. F. Heckman is here this week from Somerset visiting his brother-in-law, R. E. Bohmfalk, and family. Mr. Heckmann has ten producing oil wells on his farm at Somerset and is receiving a nice royalty on the output. He says the oil business is very active at Somerset. While here Mr. Heckmann enrolled as a subscriber to both the Anvil Herald and Farming.

M. T. Schuchart was here from Cliff yesterday on business and while here paid our office an appreciated call. Mr. Schuchart informs us that there was a large increase last fall over the normal acreage of fall sown oats, on account of the threatened damage to corn from the corn root worms, and says the crop was never more promising at this time of year than it is this season.

Winter continues to linger in the lap of Spring, Thursday night's Norther proving a most disagreeable one. The blustery wind developed a considerable velocity, at times almost approaching the cyclonic stage, but no damage resulted. About midnight a sprinkle of sleet rattled on the roofs, and the coming of the morning disclosed thin coatings of ice on exposed water. If it is just the same to the weather man, he can call off any further cold for this season. We guarantee he will find no opposition from anyone in this section.

**COMMISSIONERS COURT.**

The regular March term of the Commissioners' Court convened at the Court house Monday; all members being present, and the following business transacted:

Application for State aid on State Highway No. 27, in accordance with the agreement between Medina county and the State Highway Department, whereby the State is to furnish \$9,000 and Medina county \$3,000 for the construction of three miles of road at an approximate cost of \$4,000 per mile—a total of \$12,000—was signed by the court. (The road referred to is a stretch of the Bandera road that passes through Medina county).

Project agreements for sections A and C were signed by the court. (This is the sections of the Highway that passes through Hondo and Castroville Commissioners precincts).

It was ordered that the same election officers as in 1922 be reappointed, with the exception of C. A. Duncan at Zigzag.

It was ordered that bids be advertised for repairs to the Medina bridge at Castroville, as approved by the county engineer; bids to be opened at 2:00 o'clock p.m. on the second Monday in April.

The court viewed the proposed road above Dunlay, but action on same was deferred pending further investigation by Commissioner Tondre.

The court settled the right-of-way question with W. F. Naegelin and Wm. Bippert, allowing Naegelin \$150 for land taken, he to build the fence; and Bippert \$50 for land taken, the county to build the fence; the county to have the right to take the necessary timber for fence posts; Sattleben allowed \$50 per acre for land taken the county to move the fences.

The tick inspector was given the privilege of employing a bookkeeper at a salary of \$65.00 per month.

of Surveys No. 449, Mary Denson;  
No. 450, Geo. Rissman, and No. 451,  
J. B. Rippstein, and fully described  
in said lease, and also for the recov-  
ery of the sum of \$700.00 due as  
royalties on said lease from February  
14, 1922, to September 14, 1922.

Plaintiffs allege that they executed  
said lease on the 24th day of March,  
A.D. 1921, granting to defendant the  
right to prospect for coal on said land  
for a period of 12 months from said  
date, and that if defendant should  
find sufficient coal underlying said  
lands, he should on acceptance of said  
lease contract become liable to plain-  
tiffs for a minimum royalty of  
\$100.00 per month for each month  
thereafter for a period of fifty years  
from date of acceptance.

That thereafter, on the 14th day  
of February, A.D. 1922, the defend-  
ant by an instrument in writing duly  
executed and delivered, accepted said  
lease agreement in all its terms and  
conditions, and bound himself to be-  
gin operations for mining coal on  
said land and to pay to plaintiffs  
the said minimum royalty of \$100.00  
per month for each month thereafter  
for a period of fifty years from said  
date last mentioned.

That the defendant has wholly fail-  
ed and refused and still fails and re-  
fuses to begin operations for mining  
coal on said land, and has wholly  
failed and refused and still refuses  
to pay plaintiffs the said royalty of  
\$100.00 per month, or any part there-  
of.

That by reason of defendant's  
failure and refusal to perform any  
part of said agreement, as alleged,  
plaintiffs on the 14th day of Septem-  
ber, A.D. 1922, terminated and  
cancelled said lease agreement and  
declared the same as of no further  
force and effect, and as not binding  
on them after said date.

That plaintiffs are the owners of  
said land; that there is a valuable  
deposit of coal underlying said land;  
that said lease agreement and the  
defendant's acceptance thereof, both  
of which are in writing and have  
been duly recorded in the Deed Re-  
cords of Medina County, Texas, (the  
former in Book A No. 65, on page  
101, and the latter in Book A No.  
65, on page 470), constitute a cloud  
on plaintiffs' title to said land, and  
prevents them from undertaking op-  
erations for mining the coal under-  
lying said land.

Plaintiffs pray for judgment can-  
celling said lease agreement and de-  
claring the same terminated, and di-  
vesting the defendant of any and all  
rights, privileges or title that he  
might claim or to which he might  
be entitled under its terms; and for  
judgment for the sum of \$700.00,  
the amount of royalties due up to  
September 14, 1922, for costs of  
suit, and for general and special re-  
lief.

Herein fail not, but have you be-  
fore said Court, on the said first  
day of the next term thereof, this  
Writ, with your return thereon,  
showing how you have executed the  
same.

Witness, August Kempf, Clerk of  
the District Court of Medina County,

### A GOOD FRIEND

A good friend stands by you when  
in need. Hondo people tell how  
Doan's Kidney Pills have stood the  
test. Thos. McCall, carpenter, of  
Hondo endorsed Doan's four years  
ago and again confirms the story.  
Could you ask for more convincing  
testimony?

"I came down with an attack of  
kidney trouble," says Mr. McCall.  
I had such a severe pain in my back  
I could hardly stoop or lift. My back  
pained all the time and made it dif-  
ficult for me to do my work. I had  
heard Doan's Kidney Pills highly  
spoken of so I bought some at Wind-  
row's Drug Store. Doan's helped me  
right away and two boxes removed  
the trouble."

Mr. McCall gave the above state-  
ment May 29, 1915 and on May 5,  
1919, he added: "I have used Doan's  
Kidney Pills a few times for a slight  
backache since they cured me four  
years ago. I think just as much of  
Doan's as ever."

NOTICE, CATTLEMEN.

Want to impress on the Medina County the importance of pushing the tick eradication to the utmost of their power to free this county from heavy expenses you tax payers bear as long as this county dips. Any one that thinks county can quit dipping until we got the last fever tick out to the San Angelo country back this way and ask the different counties if they have to dip until they had the last tick and see what will tell you the best way of the dipping job and that goes with it, is to dip your stock every time the tells you to do so. In dip 100 percent of your dipping and insist on your doing the same thing. This short route to a quick the dipping job.

There have been all kinds of people to beat this law, from millionaires, but in the end had to dip and continue until they got the last tick.

County did a good job of year, but they did not and now I will call on or woman in the county to save the county taxes of this hated dipping job on necks and hit this work were in a hurry to get and they will soon finish. Enthusiasm and pep into this get your county out from quarantine and you will was the best investment ever made. Because your then be worth from \$5.00 a head more than if they and under quarantine.

What much difference in the cattle now in this zone as with the free area.

in closing that I was a way in regard to the people all their cattle last year was all new experience. But this year it will be any one who fails to dip will be prosecuted to the of the law.

the sentiment of the people and I know that they their money wasted, and ident that if any one is ough to try to get out of stock, a jury will prompt- him and put a fine on such that will make him remem- ple should not insist on stors excusing them from y horses or cattle. It is to talk to the inspectors long your cattle have but don't get mad at him n't excuse you as soon ed. If you follow the of the inspector you will much quicker than if do so.

Mr. and Mrs. V. A. Crow of Hondo were guests of her parents here Saturday night and Sunday. See Mr. Crow's card in this issue. He is a very reliable and responsible jeweler, and as Devine has none at this time our people will do well to let him have their work.

**Cotton Sold This Week At \$150 The Bale.**  
Henry Bendele sold his last four bales of 1922 cotton one day this week to Adams Co. at 30 cents basis; and the four bales netted Mr. Bendele right at \$600. The cotton did not quite grade up to midling, but the bales weighed enough to make it up. It will pay Devine people to plant a lot of strong black land early to cotton, and fight back the weed. The early cotton is almost sure to bring 25 cents.

Mr. Kidd came to Cameron from Devine several years ago.

**Buy World Champion Duroc Jersey Stuff.**  
Julian Roberson is home from Hillsboro, where he attended the third annual sale of World Champion Duroc Jersey stock. He bought two gilts from world champion stock, bred by Reese's Speculation Sensation 465415; sired by "Great Orion Sensation," which won two world championships, and a full brother to "Unique Sensation" which now holds Junior Championship of the world. Mr. Roberson already had Duroc Jerseys that have won first prizes in Medina, Frio and Uvalde fairs; but he wanted to get into the "World's Champion" class. The gilts bought by Mr. Roberson are in rather thin condition, a year old and better and weigh around 250 to 300. "Speculation Sensation" weighs 500 pounds, at one year old and is only in fair living order; not fat. Why raise pigs and sell them for \$2.50 when you can raise them worth \$500 was the question that sent Julian to Hillsboro. He is evidently on the right line.

**Devine Man Sells Rights To Hummer Plow Works.**  
Mr. L. F. Price was home this week from a swing to Dallas, Waco, Little Rock, Ada, Okla., and other points, where he has been taking car load orders for the Hitt Boll Weevil Machines. The patent rights of this machine is held by Messrs Price and Keller of Devine and Harry Landa of New Braunfels, who are the owners of Adams Co., Incorporated, at Devine. It had leaked out that a deal had been made with the Hummer Plow Works, Springfield, Ill., to manufacture these machines, and The News man sought and interview with Mr. Price, who said:  
We have sold the manufacturing right for 10 years, on a royalty basis, to the Hummer Plow Works, of Springfield, Ill., who are to manufacture, advertise and distribute these machines. They have already begun manufacturing. The small attachable machine and a double row machine, on wheels, which can be drawn with one horse, driven by a child who is able to manage. The small machine will sell for \$16; the two row for \$66. The Hummer Plow Works have already made some splen-

did improvements, have set aside \$200,000 for manufacturing the new "Hummer-Hitt Boll Weevil Destroyer" as they now call it and \$50,000 for advertising the machine. I have been looking after wholesale dealers in Arkansas, Oklahoma and Texas cities. I am only to give advisory help, and such time as I can take from the business. When asked if he "has not" fixed himself financially for life, Mr. Price shrugged his shoulders and said: I am not elated so much over the matter and will never quit work, but I have been told by these people that I can spend all my time in travel now without worrying about where the expense money is coming from."

The Hummer Plow Works were established in 1852, and make all kinds of plow implements. Mr. Price informs us; and there is no question about them being a success and being made and sold by the thousand.

Mr. and Mrs. A. C. Thallman of Hondo, were here for the Sunday services and were accompanied home by Misses Ola Gray and Celia Yarbber. —[F. F.]—

**DIPPING TO BE RESUMED.**  
County Tick Eradication Supervisor, E. J. Murray, informs this paper that the work of dipping cattle for the eradication of fever ticks will be resumed at once and the first dipping at the Hondo vat will be on Thursday, March 22.

All cattle, regardless of previous dippings, will be required to be dipped at least three times. After three dippings, all penned cattle that have not been exposed and are shown on examination to be free of ticks, will be released from further dipping. In other words, it is proposed to make the first three dippings 100 percent of all cattle.

In this matter of cattle dipping it is easily understood that the more thoroughly it is done the sooner it will be finished. So it is to every ones interest that a complete job be made of it. Remember the date—Thursday, March 22, at the Hondo vat.

## WITH THE DRILLERS.

But little new has developed in  
 drilling operations recently. The  
 Fuchs Well in the Yancey territory  
 is standing still waiting for the com-  
 ing of Mr. Fuchs, who has been de-  
 tained owing to illness in his family.  
 He thinks the drill is but a few feet  
 of the oil sand, and he wants to be  
 present when the well is drilled in.  
 It is somewhat uncertain just when  
 he will be here.

The oil people in the Chicon sec-  
 tion is showing some activity and a  
 new well will be spudded in over  
 there in the near future. The new  
 well will be located some 2,000 feet  
 west and south of the present Jung-  
 man well, the new location being se-  
 lected by one of the State geologists.  
 As has been stated before, the Jung-  
 man well is a steady producer and  
 the result of the new well will be  
 watched for with interest. The geol-  
 ogist who located the site gave it  
 as his opinion that a pay proposition  
 would be struck in this new well.

## BARN BURNS.

Mr. D. G. Reitzer was in town  
 Thursday from New Fountain and  
 informed us that he lost a barn and  
 contents by fire early Tuesday morn-  
 ing.

The corn belonged to himself and  
 his two brothers, Herman and Henry  
 Lindeburg. It was the entire corn  
 crop of grain from twenty-eight  
 acres and it, together with about  
 three tons of baled shucks were al-  
 most completely destroyed, only a  
 little smoked and charred grain be-  
 ing salvaged.

The fire occurred about five o'clock  
 Tuesday morning and its origin is a  
 mystery.

Mr. Reitzer estimates their loss  
 at about \$1200.00 and there was no  
 insurance. The loss falls quite heav-  
 ily on the unfortunate men.
